LGL's Family Office division serves a wide range of clients: international family offices, high net-worth individuals, and entrepreneurs. We partner with clients and their advisors to tailor services to their requirements, including asset protection, succession planning, or holding assets such as real estate, private companies, yachts and art. LGL is uniquely independent, untied to any financial group or third party. This allows us to discharge our fiduciary duties with only the client's interests in mind.
